Cup Final Welcome

It's been a long hot and very dry summer in 2026, in fact the driest since 1976 which was three years before this prestigious competition was held for the first time. Despite that one of this season's quarter finals managed to be rained off.

For the third time in four season's we have a Sussex v Northamptonshire final, it's also the third time in four seasons that the final is taking place in Hove, in fact every final since 2021 has either been hosted by Sussex at the 1st Central County Ground or held at Northamptonshire's County Ground.

Sussex have already claimed the BCEW National League title in 2026 and have qualified for this season's Twenty20 Finals Day, whilst Northamptonshire finished third in the National League. The sides have split their National League fixtures this season with one win a piece.

Sussex qualified for this final with a dominant win over Lancashire Lions and a narrow 14 run win over London Metro, whilst Northamptonshire beat Somerset VICC in the quarter finals before edging past Kent Spitfires by 3 wickets in a thrilling semi final.

BCEW would like to thank Sussex Cricket for their continued support of our game and for hosting the final again, we would also like to sincerely thank The Primary Club without whose financial support our game wouldn't be what it is.

Good luck to both teams and I hope it's an exciting and enjoyable final.

By Dave Gavrilovic
Competitions Director, Blind Cricket England & Wales.

Sussex Win Record Breaking Primary Club Cup final

A match that went to the final ball where it was poised on a knife edge. Nick Ebbeck was bowling the last over having been held back until the 28th before being thrown the ball. The experienced Rory Field had conceded just three from the previous over, as from his penultimate over, and the Sussex Sharks, eight down needing 10 runs from the final over to regain the trophy. At the crease were Marcus Kipling and Alex Towers, on 9 from 9 and 3 from 15 balls respectively. Marcus, running quickly smartly scrambled three runs from the first ball and the pair then traded three singles as the tension rose among all at the ground and especially the knot of Sussex players standing on the beautiful turf of the county ground just outside the boundary rope. So 4 needed from two balls – the rate higher than at any time in the chase. Marcus took two and so it came down to two needed from the final ball – could Metro repeat their epic one run victory over Warwickshire Bears from 2008?

Wide ball! And all changes with the scores level and probably no-one at the ground aware of how finely balanced the game was. Sussex had lost one less wicket so would win the game unless Metro could take a wicket to tie on both runs and wickets. At that point the rule book would have been needed as Metro would have won having scored more than Sussex from the first ten overs. The ball was defended into the ring of totally blind fielders surrounding the batter and with Alex backing up well a run was scored for a two wicket victory to secure Sussex's sixth Primary Club Cup triumph, only Metro have now won the cup more times. Sussex thus win both of their cup matches this season off the final ball as this win repeated their semi final victory over Lancashire Lions; the first ever time this has happened in Uk blind cricket.

Earlier in the day Metro had posted what looked a below par 177/9 from their 30 overs. Although they had some reasonable partnerships none reached 50, nor did any individual. Thomas Froud came closest with a rapid 46 before he was caught by Joe Harrison off the bowling of Phil Daniels. However a key moment in the game may well have been in the seventh over as the Metro openers had scored 45 when Matt Dean came down the track and played a shot fielded with electric speed by Ian Morris to get the ball back to Si Ledwith and take the first of an amazing six run outs in the innings. That feat is a record as no team has taken six run outs in the final of any UK VI cricket cup before. With Metro scoring slowly after that to reach 85 at drinks Sussex surely felt in control as Si took two catches and kept very well with his excellent positioning saving several runs. Dave and Phil Daniels were the stand out bowlers, Dave conceding just 16 from his six overs while Phil picked up two wickets for 13 from his six.

In the chase Metro struck early as Sam Hoskin bowled Dave Daniels in the first over and kept up the pressure by taking their chances in the field with five catches. Sam also bowled Ian Morris so drinks were taken three balls early with the Sharks on 70 for 5 and the game perhaps looking more in the balance than expected. When Dan Field, 42, was caught by Matt Dean to end the highest partnership of the day at 64, 44 runs were needed from the last seven overs.

Cue the thrilling end of a great day and a brilliant advertisement for VI cricket. The man of the match awards went to Sam Hoskin, totally blind; his 3 for 26 denying Dave Daniels the award while partially sighted player was Si Ledwith

Picture: Ian Morris - Sussex Sharks

for outstanding keeping, two catches and the assist in the first run out. Sussex made a point of acknowledging the contribution made by Thomas – without his runs the finish may have been less thrilling.

BCEW want to thank Tom Belcher, Gary Wallis-Tayler and the team from the Sussex Cricket Foundation for their exceptional hospitality, welcome and support for the game; Jon Philby the Sussex Cricket Chair who presented the trophies and the Primary Club whose continued support enables cricket for the visually impaired to take place throughout the summer.
Thanks also to the day's match officials – umpires Yolanda Harris and Ian Piggott, scorers Steve Field and Seb Egan

The Charles Ronayne Foundation

A charitable foundation set up in memory of much missed former Northants & Metro player Charles Ronayne. The charity called The Charles Ronayne Foundation aims to support young people with disabilities or special educational needs in East London. As part of this the charity have developed a relationship with Charles's former school &
will present an annual award to a deserving pupil at that school.

Anyone wishing to make a donation to the foundation can do so using the below details:

2026 Cup Final Match Officials

Umpires

Ian Piggott

Year first officiated in blind cricket: 2024
First match: Kent Spitfires v Yorkshire Vikings, June 2024 – abandoned after 11 balls because of rain!
Previous Primary Club Cup Finals: 2025
Favourite Memory of officiating blind cricket:
The more I umpire VI cricket the more great memories I get but mostly it is coming off the field at the end of game having had an enjoyable day with a competitive game played probably as close to the "Spirit of Cricket" as we can get.

Favourite Thing About 2026:
From a selfish perspective, being asked to umpire a VI game at Arundel Castle, an opportunity I don't think I would have got had I not been involved in VI cricket and I am extremely grateful.

Roger Barker

Year first officiated in blind cricket: 2012
First match: Northants Steelbacks v Metro Devils
Previous Primary Club Cup Finals: 2013, 2015, 2018, 2024, Match Referee in 2021, 2022
Favourite Memory of officiating blind cricket:
Being asked to Umpire the World Blind Games T20 Final between India and Pakistan at Edgbaston in 2023, I'd already been appointed to another red ball match on the same day, so the invite really was a surprise.
Your Favourite Thing About 2026:
Seeing the improvement in performance in teams in the Development Leagues. And the spirit of Dorset VI who have played a couple of matches with only 8 players and getting winning draws in each!

2026 Cup Final Match Officials

Scorers

Paul Toplis

Year first officiated in blind cricket: 2008
First match: Northhamptonshire Steelbacks v Metro 14th September 2008
Previous BBS Cup Finals: 2010, 2016, 2018, 2019, 2021, 2022, 2024 & 2025

Favourite Memory of officiating blind cricket: Thanks from the players for the officials at the end of each game – Heindrich was always great at that; just part of why it is so good to have this competition named after him.

Favourite Thing About 2026: Continued growth of the VI game – Hertfordshire Comets as a new team, Staffordshire playing at National level and success for Cheshire in reaching T20 finals day and the Northern Development T20 final.

Steve Field

Year first officiated in blind cricket: 2003
First match: 24th May 2003 Birmingham v Sussex in the Birmingham tournament
Previous Primary Club Cup Finals: 2003-2009, 2011-2015, 2017-2018, 2022, 2024 & 2025

Favourite Memory of officiating blind cricket: Scoring Sri Lanka v England in 2006 with a scorer with whom I didn't share the same language or alphabet.

Favourite Thing About 2026: The contribution of Sussex's younger players towards winning the league again

The Road to Hove

By Ian Morris

The Primary Club Heindrich Swanapoel Cup is the longest running disability sport competition in the world, first played for in 1979 in those days the pitch was just 16 yards long, it was 8 ball overs and a full size 5 football was used in the game. Now it uses a childs size 3 football and everything else is cricket as you would know it.

This years competition started back in early May when Staffordshire, from Division 2 were comfortably beaten by last years finalists London Metro by 8 wickets. In the other half of the draw in an all 2nd division affair Kent made the long journey to Yorkshire and emerged victorious by an 8 wicket margin.

Sadly Northamptonshire's quarter final away to Somerset was rain affected and as a rearrangement couldn't be agreed the Steelbacks went through after the toss of a coin.

Sussex hosted 1st division Lancashire in the last quarter final and racked up an impressive 244 for 1 in 30 overs with Skipper Dan field blazing 107* and Keeper Si Ledwith 66* the scoreboard pressure proved too much for Lancashire who subsided to 120 all out Dave Daniels the pick of the Sharks bowlers with 4 for 27 off of his 4 overs.

Both Semi finals were competitive , Kent piled up a massive 288 for 7 but Northants managed to chase the score down with just 3 balls and 3 wickets to spare mainly thanks to a magnificent 183* from opener Bilal Akhtar . In the other Semi, a repeat of last years final, Sussex compiled 209-9 in their 30 overs and managed to restrict Metro to 195 for 9 and got home by just 14 runs.

This sets up a tantalising final, the 2 sides won 1 each in the league this season with Northants chasing down a large total in Sussex and Sussex knocking over Northants cheaply in the return fixture.
This will be Northamptonshire's 3rd cup final having lifted the trophy in 2021 and 2024, whilst it will be the 10th Final for Sussex who claimed the title in 2010, 2014, 2017, 2018, 2023 and 2025 . The sides have met twice in the cup final Sussex winning comfortably in 2023 at the County Ground Hove and Northants winning easily in 2024 at The Northamptonshire County Cricket Ground, will home advantage prevail in 2026?

Blind Cricket Seeks Sponsors to Support our Vital Work

Blind Cricket England & Wales (BCEW) are actively seeking new funding to support our important work and have sponsorship opportunities available across our programmes.

Blind Cricket is a unique and valuable part of the game as our ethnically diverse group of around 500 male and female players represents a wide spectrum of ages who all have one key thing in common, because of their severe level of sight loss they are unable to safely play any other form of cricket.

As such a high proportion of severely sight impaired people are unemployed (73% for those severely sight impaired, over 90% for those registered blind), team sport is a vital part of our players social lives and provides benefits in confidence and health as well as a sense of purpose. Blind Cricket has by a wide margin the highest participation levels of any outdoor team sport for blind and visually impaired people and is therefore a vital part of many of our players lives.

As of March 2026 we would welcome sponsorship of our:

National League, which has two divisions.

Development Leagues - Midland, Northern & Southern

National Twenty20 Cup, and our Development Twenty20 Cup Which is currently played across the Midlands & North.

We would be happy to discuss including the name of your organisation in the title of any of these competitions that you are able to support as well as adding your organisation to the banner on our website containing details of our current funders.

We are also in search of a sponsor for our Umpires and Scorers panel, umpires and scorers are essential to blind cricket as the players are not able to umpire or score their own matches and therefore if we cannot pay for these officials then matches cannot take place.

We would also like to take this opportunity to thank our existing funders:

The Primary Club
www.PrimaryClub.org
The Primary Club are blind cricket's biggest supporter. As well as providing funding to our more than twenty clubs they also fund BCEW's development work, the blind cricket balls supplied to our clubs, trophies and medals, The Primary Club Cup competition that has run every year since 1979 (excluding the 2020 season which was lost to Covid) & provide funding towards the cost of managing our all Women's team, the UK Women's VI Cricket team. We remain exceptionally grateful to The Primary Club and to all of their members for all that they do to support our game.

The Spectacle Makers Charity
www.spectaclemakers.com/charity
In 2026 the Spectacle Makers Charity have begun supporting our women's VI cricket development programme, this is an exciting new partner for our work and we look forward to working with The Spectacle Makers Charity throughout the year. We sincerely thank them for supporting this programme.

England & Wales Cricket Board
The ECB exclusively fund & manage the England Men's VI Cricket Team.
ECB also provide BCEW with some general domestic game funding.
We thank the ECB for their support
